Solar eco-friendly events all-inclusive
(mobile solar power, DJ, good music and love) !

Context & Purpose

Addressing the challenges of outdoor events

Many outdoor events face a common challenge: securing a reliable power source while maintaining a low carbon footprint.

Our systems provide a solution to this issue. Our goal is to contribute to the development of eco-conscious events for the future.

In the realm of outdoor settings, it is imperative to optimize the following criteria: sound quality, functional efficiency, relevance, mobility, and system autonomy.

Our system addresses these demands: no unnecessary energy loss, extended autonomy thanks to powerful batteries, simplified transportation and setup... All designed to provide an enjoyable experience for all stakeholders: the audience, the staff, and the planet!

Whether it's outdoors or indoors, we provide a turnkey solution to minimize the carbon footprint of your event!

The rising trend of sustainable events

The green and carbon-neutral events industry is rapidly **expanding**. By choosing We R Solar, you're contributing to the development of eco-conscious events for the future.

Carbon Footprint-Linked Grants

An increasing number of events are eligible for grants based on their carbon footprint. By opting for our solar energy solution, you're not only adhering to ecological standards but also accessing financial benefits!

Our services

SOLAR GENERATOR RENTAL

Rent a solar generator to power your event efficiently, reliably, and sustainably.

Our service includes assessing your needs, installing, and dismantling the system. This allows you to focus on other aspects of your event!

- ▶ Businesses & Individuals
- ▶ One-time Events

TEMPORARY & CUSTOMIZED INSTALLATION

THE solution if you're planning a series of recurring events over an extended period.

We install the system for 1, 2, 3 months, etc., for all venues with outdoor spaces (example: parks, restaurant terraces...)

- ▶ Pros uniquement
- ▶ Événements récurrents

360-DEGREE SERVICE

(As an additional offering!)

DJ SERVICE WITH MR. P BOOKING

Talented and experienced DJs from the Mr. P Booking agency.

EVENT MANAGEMENT

- Professional Technical Management
- Coordination of equipment, lighting, sound systems, etc.
- Seamless event production

SOUND EQUIPMENT RENTAL

Professional Sound Equipment (Speakers, Mixing Board, Microphones, Lighting, etc.)

Technical details

OUR SYSTEMS

We provide two systems that can be rented together or separately depending on your event's requirements

8 x 2.4Kwh batteries
Total battery power = 19.2Kwh 12 x
400w or 500w solar panels
Solar availability: 4800w/6000w

SOLAR DISCO MOBILE

10kVA/8kWh storage

MEGA BOX

10kVA/15kWh storage

EXAMPLES OF EQUIPMENT WE CAN POWER

Our systems can simultaneously power various equipment over an extended period thanks to the performance of the batteries.

Audio

Lighting

Refrigerators

Foodtrucks

Other catering equipment

NB : Obviously, we advise against using fryers from 40 years ago (and any other unnecessarily energy-intensive equipment)! Choose a more sustainable cooking approach :)

About us

We R Solar was born out of our passion for events and our commitment to eco-responsibility.

Our journey began when our association project "Solar Disco Mobile" won the title of regional winner in the Grand Est region as part of the 2020 Citizen Initiative call for projects. It was then that we realized the enormous potential of our project.

Faced with a growing demand for services, we decided to transform the association project into a business, We R Solar.

Today, our mission is clear: to provide an alternative, sustainable, and efficient electrical power solution for all types of events and to make this industry more eco-friendly.

THE WE R SOLAR TEAM

Philipp Pollaert

More than just a stage manager...

With 20 years of experience in the events industry, Philipp is a virtuoso of production and coordination. His dedication to ecology drives We R Solar towards a sustainable future.

Yoann Lamarche

Yoann, the founder of our partner Mobilvolts, is the mastermind behind our systems. His technical expertise and passion for innovation enable us to offer cutting-edge solutions to power all types of events.

Caroline Bisello Boursetty

Caroline's financial and administrative expertise ensures the smooth operation of We R Solar. Always on the lookout for opportunities, she is the driving force behind our growth and prosperity.

Solar Projects

They've trusted us before

our clients' feedback

"We R Solar, our partner for our event 'La Tournée des Terroirs' in the heart of the vineyard. 15 dates entirely powered by solar energy."
- **CIVA (Interprofessional Committee for Alsace Wines)**

"A top-notch service! The city of Haguenuau has already enlisted Philippe, his turntable, and his solar panels twice, and it's always a success. Whether with sunshine or batteries charged by the sun, he knows how to adapt to the audience by playing all styles of music that make people dance or smile :) His solar panels can power other installations (food trucks) too! In short, it's always a pleasure to have We R Solar: easy installation, autonomous, eco-friendly, and original concept that catches the eye. And Philippe: always in a good mood :)"
- **City of Haguenuau**

"Highly professional, pleasant, and efficient service. High-quality solar sound system for all types of events. We R happy!"
- **Espace Django**

"Great experience at an outdoor Open Mic! Professional, quality service in a cool atmosphere. Efficient, attentive, interesting approach... We will definitely call on We R Solar again!"
- **Artefact**

Fantastic experience at the Pumptrack inauguration. Practical, trendy, and eco-friendly, We R Solar is simply the future! Beyond the concept, exceptional sound! I recommend it 200%.
- **City of Corcieux**

In short

A future-proof solution & tool

Easy to transport and install

Environmentally friendly

Effective for all types of outdoor events
(festivals, concerts, film shoots...)

Part of a thriving and growing sector

Versatile systems

Act for the futur,
sunshine your parties !
